

WATER

DIE KLEINE ABENDGESELLSCHAFT PHILOSOPHY

discussion
food & wine
sketches
ideas

DESIGN

LAW

WATER IS A HUMAN RIGHT

Who owns the water ?
Why we must pay for water ?
Does Nestle have the right to steal water?
Why can water be sold ?

ART

WANDERING EXHIBITION

Public
Language
Expression
Images
Criticism and sarcasm

TECHNOLOGY

CONSTRUCTION, DESIGN
SUFFICIENCY

How do I construct a self-sufficient, sustainable greywatersystem?
How do I connect technology with design?
What sustainable materials can I use?
Does self-sufficiency have to be expensive?
How do I build a grey water system into small spaces?

SCIENCE

EXPERIMENTS

How can I clean my grey water ?
How does nature do that ?
Can I drink it ?
What kind of methods does exist ?

CONSTRUCTION OF A FUNCTION WALL WITH A SELF- SUFFICIENT WATER FILTER SYSTEM FOR TINY, MOBILE SPACES

The HOUSE OF TINY SYSTEMS is a tiny house with a function wall in the front.
The project is focused on the construction of a independent sustainable watersystem and the
research of sustainable material for the filter (filling and construction).

IT'S A TOURING EXHIBITION, WORKSHOP AND LABORATORY
TO FIND SUSTAINABLE SOLUTIONS FOR CLEAN WATER

HOUSE OF TINY SYSTEMS
self- sufficient and sustainable greywater system
in tiny and mobile spaces

the house is built by RESPACE
